

# Quarantine Curriculum - Week 4

Apr 5, 2020 | 0  | [onthepods, Quarantine Curriculum](#)

Welcome to [Week 4 of your Quarantine Curriculum](#).

[onthewards](#) is here to keep you connected, learning and challenged with our comprehensive list of medical education resources. This week's Quarantine Curriculum covers a range of podcasts. From anticoagulants, anaphylaxis, psychiatric patient care and diagnostic errors to obstetrics, acute limb ischaemia, and communication and patient-centered care.

For a recap of [Week 1](#), [Week 2](#) and [Week 3](#) podcasts visit:
