

# Quarantine Curriculum - Week 7

Apr 26, 2020 | 0  | [ontheblogs](#), [onthephones](#), [onthebots](#), [Quarantine Curriculum](#)

Welcome to [Week 7 of your Quarantine Curriculum](#).

Arranging a consult can be daunting for junior doctors. It's often difficult to know how to prepare, and you may not know how to organise the information before calling. This week's Quarantine Curriculum revisits some of our consult guides to help you perform a formal consultation.

For more consults check out our [onthephone](#) section.

For a recap of Week 1-6 of Quarantine Curriculum visit:
